

## Our Mission:

To provide quality medical, dental and pharmacy services to low income, uninsured Brunswick County adults in a caring, patient centered setting.

## Our Vision:

To make our community healthier

## Our History:

In 1998, a small group of compassionate people with a big vision joined together and founded New Hope Clinic. That first year we operated out of a single room and treated 38 patients. From this modest beginning, New Hope Clinic has come a long way. We now operate a 4,000 sq. ft. facility in Boiling Spring Lakes where we provide care five days per week, and limited services are offered at a satellite clinic in Shallotte.

In addition to high quality primary medical care, we deliver a full range of healthcare service including specialty care, dental care, individualized patient education, and prescription medications. We also host diabetes education classes and partner with other organizations to provide additional services.

A small staff and over 150 volunteers, including doctors, dentists, NPs, PAs, pharmacists, nurses, medical & dental assistants, and administrative support personnel, contribute over 12,000 volunteer hours to provide over 6,000 patient encounters annually. We help nearly 1,000 patients each year, but the need is even greater. Over 1 million North Carolinians still remain uninsured. Please help us spread the word about New Hope Clinic so we can help more or the less fortunate among us have access to the healthcare they so desperately need!

“New Hope Clinic is a blessing. I have no way that I could ever get any kind of healthcare if it didn’t exist.”

- Patient Quote

“There is a great need for your services, personally this clinic saved my life!”
